Quantity	Description	Images
1	Shelf Top	
Quantity depends on length	Bracers	
Quantity depends on length	8 x 3 Deck Screws	

ASSEMBLY INSTRUCTIONS

Thank you for purchasing Forever Redwood patio furniture. Forever Redwood is built by Old-Growth Again Restoration Forestry (OGA). OGA is dedicated to restoration forestry. Sales of patio furniture finance our restoration work in California redwood forestlands.

Tools required: ½-inch ratchet and a mallet or small hammer.

Unpack your shelf and make sure you have all the parts.

The parts that go together have the same numbers written next to the predrilled holes they attach to.

Align the parts with the numbers as shown for ease of reference.

Step 1: Attach each bracer to the bottom of the shelf top with 2 deck screws each. Make sure the numbers next to the predrilled holes match.

Step 2: Attach the shelf top and bracers to wall with two deck screws each as shown below.

Thank you. If you have any questions, please call or email us.
