2	Cross Supports		
12	<b>Carriage Bolts 5 1/2" x 5/16", Washers and Nuts</b>		

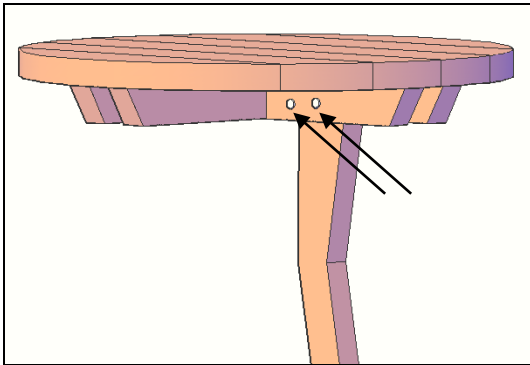

# ASSEMBLY INSTRUCTIONS

Thank you for purchasing Forever Redwood patio furniture. Forever Redwood is built by Old-Growth Again Restoration Forestry (OGA). OGA is dedicated to restoration forestry. Sales of patio furniture finance our restoration work in California redwood forestlands.

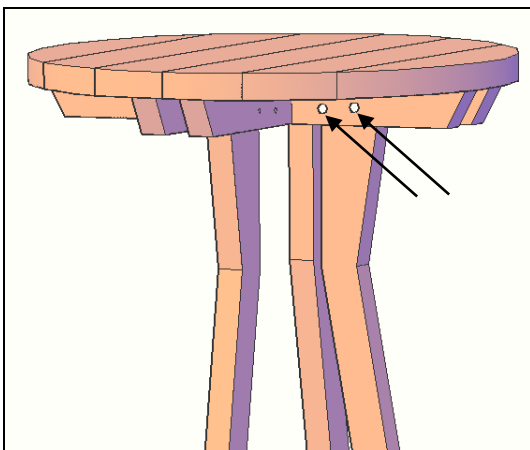

**Tools required:** ½-inch ratchet and a mallet or small hammer.

The parts that go together have the same numbers written next to the predrilled holes they attach to. Align the parts with the numbers as shown for ease of reference.

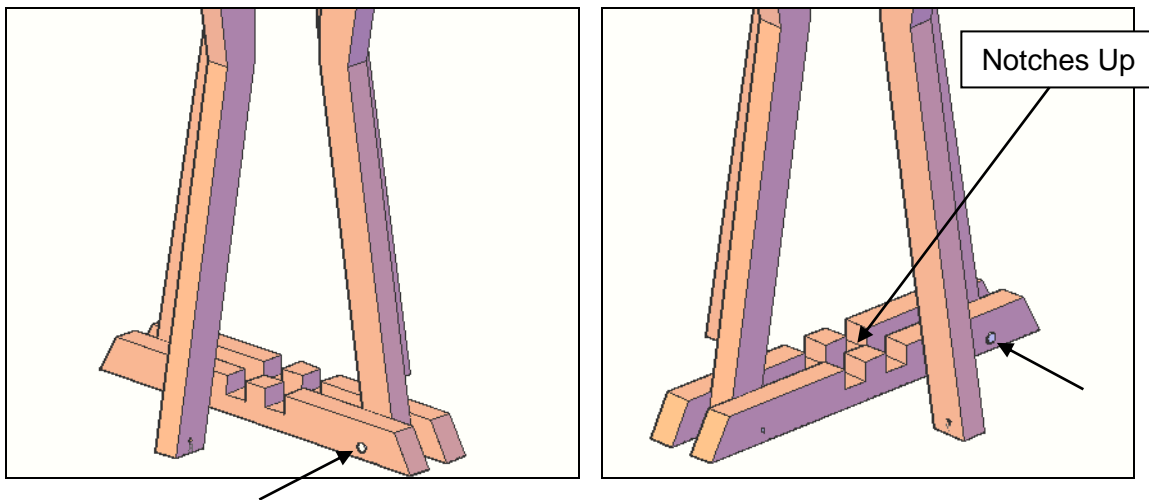

**Step 1:** Attach leg to tabletop with two bolts 5 ½" x 5/16", washers & nuts (holes number one into holes number one). Tap the bolt all the way into the wood to set it. Then add a washer and nut and lightly tighten.

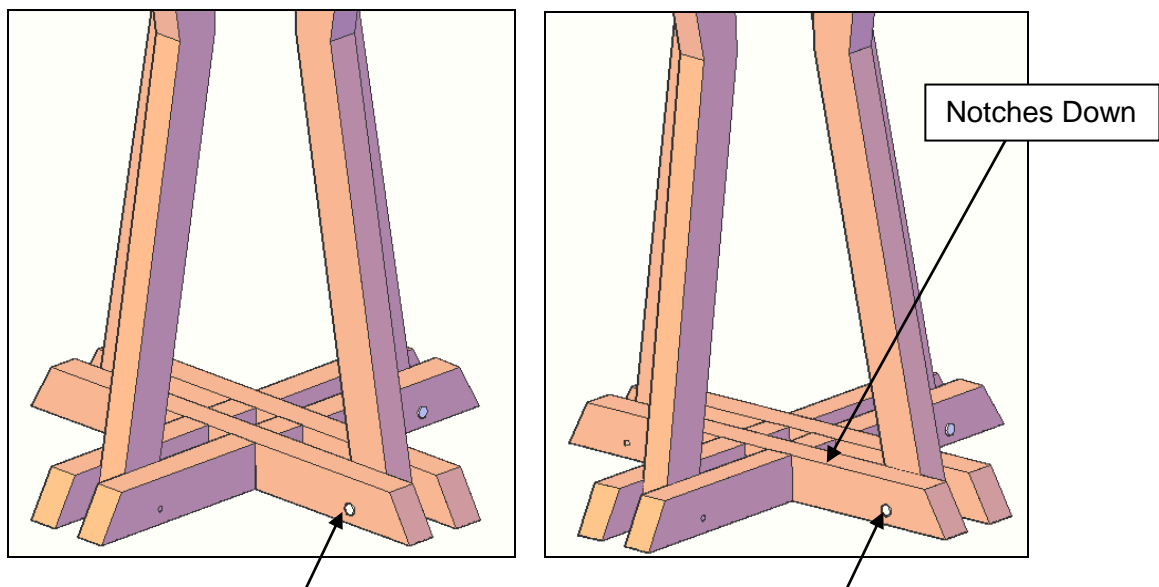

**Step 2:** Repeat step 1 to attach the other 3 legs. Match the numbers written next to the predrilled holes on each piece.

**Step 3:** Attach 2 of the 4 cross supports to the 2 legs with the same numbers written on them. Attach with one carriage bolt 5 ½"x 5/16", washers & nuts per leg. Both cross supports must have notches in same direction. Tap the bolt all the way into the wood to set it. Then add a washer and nut and lightly tighten.

**Step 3:** Attach the other couple of cross supports to the other 2 legs with one carriage bolt 5 ½"x 5/16", washer & nut per leg. Match the numbers written next to the predrilled holes. Tap the bolt all the way into the wood to set it. Then add a washer and nut and lightly tighten.

Thank you. If you have any questions, please call or email us.
